- Demonstrated leadership in team projects

PROJECT

Global Tour Travels

Link : <https://www.globaltourtravels.com/>

Technology: HTML, CSS, JavaScript, PHP, MySQL

- Structured a full-stack travel booking system with real-time search and location-based package filtering.
- Integrated (**Razorpay**) **payment gateway** for secure online transactions via cards, UPI, wallets, and net banking.
- Managed bookings, packages, and user data using MySQL with a focus on security and reliability.
- Implemented a centralized admin dashboard for seamless management of bookings and user queries.

E-Commerce Website

Technologies: HTML, CSS, JavaScript, PHP (Laravel Framework)

- Developed a **responsive** Laravel e-commerce platform using MVC architecture with category-wise product browsing, pricing, size selection, and discounts.
- Integrated secure admin-controlled management for products, inventory, and orders with user authentication and role-based access.
- Optimized database queries and implemented form validation for fast, reliable, and seamless shopping across devices.

Beauty Blooms

Link: <https://beautyblooms.wuaze.com/>

Technology: HTML, CSS, JavaScript, PHP

- Designed a user-friendly E-Commerce Website platform for browsing and ordering beauty products.
- Centralized product, order, and image management through a dedicated admin panel.
- Maintained performance and responsiveness across desktop and mobile platforms.

EDUCATION

B.Tech Computer Science and Engineering

- Guru Ram Das Institute of Management and Technology

2020 – 2024

Dehradun, India
