PROJECT

Global Tour Travels
Link : https://www.globaltourtravels.com/
Technology: HTML, CSS, JavaScript, PHP, MySQL

- Designed and developed a responsive full-stack travel booking platform with real-time search, pricing, and location-based package selection.
- Integrated MySQL for secure and efficient management of user data, bookings, and travel packages.
- Developed a secure and functional admin panel to manage travel packages, monitor bookings, handle user queries, and maintain overall site operations.

E-Commerce Website
Technologies: HTML, CSS, JavaScript, PHP (Laravel Framework)

- Built a clothing e-commerce website using Laravel, enabling users to browse products by category, size.
- Implemented product management with multiple images, pricing, and discounts for smooth admin control.
- Created responsive and user-friendly interfaces for seamless shopping across devices.

Apnavii Property
Link: https://wheatstonetechsolutions.com/apnavii/
Technology: HTML, CSS, JavaScript, PHP

- Built a modern and responsive property listing platform with dynamic PHP-based content to showcase real estate details, pricing, images, and features.
- Designed an intuitive, mobile-friendly interface optimized for fast performance and smooth user browsing across all devices.
